

Klove serves me and the entire broadcast community by promoting a life-style of honesty and integrity. Something this country can never get too much of. It is essential that the community promotes through every available means a decent example for our children. Klove does exactly that. There are far too many of negative examples present that assault our children daily. If Klove is displaced by an LPFM broadcaster, one more light of decency will be extinguished. It is in the interest of all that Klove continue to broadcast its positive message. It would shame and a disgrace to our community to hinder or lessen their broadcast area.

Thank you,
Floyd C. Downs
